

Uniform bands and gaps

An example:

$$\int_{\beta}^x \rho(t) dt = \frac{\beta - x}{\alpha - \beta}, \quad w_j = \frac{1}{2}.$$

Uniformly bands and gaps

An example:

$$\int_{\beta}^x \rho(t) dt = \frac{\beta - x}{\alpha - \beta}, \quad w_j = \frac{1}{2}.$$
